Enoforum Web 2026: a global success for the Online Conference held October 20–22

With over 3,000 registrations and more than 2,300 active participants from 80 Countries, Enoforum Web has established itself as the leading platform for research and innovation in oenology and viticulture.

October 23, 2026 – The digital edition of **Enoforum Web 2026**, the largest virtual scientific conference dedicated to innovation in the wine industry, concluded with an extraordinary turnout. The event was organized by Vinidea in collaboration with **SIMEI** (Italian Wine Union), the leading international trade fair for winemaking and bottling machinery, and under the patronage of the OIV (International Organization of Vine and Wine).

The partnership with SIMEI made it possible to further expand the conference's audience and technical scope; over the course of three days of online sessions, the event attracted more than 3,000 registered participants and over 2,300 professionals and technicians connected from around the world.

International coverage: participants from 80 countries

An analysis of the participation data highlights a distinctly global scope, with registrants from as many as 80 countries.
Italy accounts for the largest share, followed by the leading European and international wine-producing Countries:

- **Italy**: 36%
- **Spain**: 14%
- **France**: 7%
- **Portugal**: 6%
- **Argentina**: 6%
- **United States**: 4%
- **Chile**: 4%
- **Greece**: 4%
- **Brazil**: 2%

Next come Mexico, Romania, Canada, Croatia, Germany, South Africa, Ukraine, the UK, Switzerland, and Bulgaria, all the way to India and Uruguay.

Full Event Recordings

For those who were unable to attend the live sessions or wish to review the presentations, full video recordings of all three days are available for purchase at the official link below, with a **special discounted price available until November 6th**:

The Program, Presentations, and Key Participants

The packed conference program consisted of 16 sessions of technical and scientific presentations, featuring a total of 9 internationally renowned keynote speakers and 25 speakers representing the R&D departments of partner companies, universities, and research centers.

Key topics addressed during the event included:

- Oxygen Management in the Winery
- Sulfite Reduction
- The Concept of Balance in Wines Based on Experimental Data:
- Use of Chitosan
- Pressing Strategies
- Non-Alcoholic and Low-Alcohol Wines
- Wine Stability: Protein and Colloidal Stability, Quercetin Precipitation, Calcium, Brettanomyces, and “Gushing” in Sparkling Wines
- Fruity Aromas in Red Wines
- Longevity in White Wines
- Balance
- Aging and Ethanol

The official **Keynote Speakers** of the 2026 edition were:

- **María del Alamo** (Grupo UVaMOX, University of Valladolid - Spain)
- **Ignacio Nevares** (Grupo UVaMOX, University of Valladolid - Spain)
- **Federico Casassa** (Cal Poly University - USA)
- **James Harbertson** (Washington State University - USA)
- **Belinda Kemp** (Director VitiVino - UK)
- **Matteo Marangon** (University of Padova - Italy)
- **Davide Camoni** (Winemaking Consultant - Italy)
- **Claudia Nioi** (University of Bordeaux - France)

- **Antonio Palacios** (University of La Rioja - Spain)

Alongside the Keynote Speakers, essential contributions were made by technicians and researchers from partner companies SIAD, Omnia Technologies, Vinventions, Sofralab Group, Grupo Agrovin, CDR WineLab, Dal Cin, Willmes, Parsec, Laffort, Lallemand Oenology, and Enartis, whose support made the event completely free and accessible to all.

The presentations were also complemented by feature videos from the winning companies of the **SIMEI 2024 Innovation Challenge**.
